

NEWS FROM THE TRADING HUT

We have just bought a great Sherpa trolley to help you carry away your trading hut purchases such as compost, growbags, top soil and any other heavy materials.

Just a reminder that the trading hut still has in stock some useful summer commodities:

Bird Netting; Butterfly Netting; Insect Netting.

Grow Bags – organic and non-organic. These are as useful for seed planting as they are for tomatoes and cucumbers etc.

Tomato feed.

Top Soil in handy bags.

New supply of Soil Improver/Conditioner – now stored in the manure area.

Organic Bug Clear to get rid of pests on your crops.

See our price list for details.
