

THE MOORSIDE TRADING HUT – NEW STOCK NOW IN

A big thank you to all allotment holders who completed Trading Hut Questionnaires in which you put down your product 'wish list'. We are working through your 'wants' and should be able to cater for many of them over the next few weeks.

In the meantime, we now have in stock:

Well-Rotted Manure at 50 pence a barrow.

Semi-Rotted Manure at 50 pence a barrow – for those of you who want to put it by for a couple of months.

Sharp Sand – completely suitable for allotments – at £1 for 24 kg – a bucketful. We have measured a specific bucket load, which is a manageable quantity to carry. We provide the bucket! We recommend you transfer your load to your own barrow at the point of collection from the Allotment Manure Area. The key is in the Trading Hut.

We have also taken another delivery of **Bonemeal**, which several of you are waiting for. It is selling at the same price as before – 90 pence for a 2 kg. Bag.

Scaffolding Planks – now that everyone has taken their pre-ordered planks, we have some surplus stock for those of you who want them for raised beds or bordering paths. Price 25 pence per foot.

For information - we have a diminishing stock of top quality Humax compost – 75 litres for £4.20. We have ordered more, although it may be the week immediately following Easter before it is delivered. Apparently the manufacturers have run out of bags! In the meantime, we are nagging them for an earlier delivery, if possible.

JUST A REMINDER THAT WE STILL HAVE SEED POTATOES AT A VERY COMPETITIVE PRICE. Visit the Trading Hut where we have an illustrated description of each variety available pinned on the Hut Notice Board.

Please call at the Trading Hut between 1-0 am and 12 noon, Saturday and Sunday to buy any of the above products.

**Susan Pownall
